Even though we will still be left with questions in the end, as we pursue God, He will reveal Himself to us in many ways. Whether you're a deeply committed follower of Christ or someone just beginning a spiritual journey, this series will help you explore the answers to the questions you're asking or being asked by others.

Today we are going to focus on the question "Why should I believe in God in the first place?"

Our culture is fascinated with Knowledge because it brings a sense of certainty, something tangible.

There is a difference between knowing about God and knowing God.

The Christianity contains both truths and mysteries.

The more you begin to know God, the further it strengthens your belief in God.

How can I know God?

Curiosity: We are drawn to something larger than ourselves

Ecclesiastes 3:11, He has made everything beautiful in its time. He has also set eternity in the hearts of men; yet they cannot fathom what God has done from beginning to end.

Awareness: Having the ability to perceive and process information.

God has a desire for us to know things.

Romans 1:20, For since the creation of the world God's invisible qualities-his external and divine nature- have been clearly see, being understood from what has been made, so that men are without excuse.

Nature: There is no word for nature in the Hebrew language.

Psalm 19:1, The heavens proclaim the glory of God. The skies display his craftsmanship.

Conscience: Having a sense of right and wrong.

We have a choice

My Life: It is impossible to explain everything, but looking at a life you can see the transformational evidence by the fruit that is made.

Christianity teaches that the infinite, personal God has clearly revealed himself to us through

1. God's Word
2. Life of Jesus

Why believe in God?
